

REMARKS

The forgoing amendments are made to insert the required SEQ ID NO identifiers associated with each listed sequence, as well as correct obvious errors due to copying of the published parent PCT application at the time of filing. In this regard, applicants note that certain pages were cut off during copying of parent application PCT/US02/27605 at the time of filing of the instant application, which affected paragraphs [0126], [0128] and [0165]. Support for correction to these paragraphs may be found in the parent PCT application, the substance of which is incorporated by reference in its entirety. No new matter is entered.

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested. The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.

Respectfully submitted,
